COURSE OUTLINE

Sustainability in Construction – Learn, Live, Lead

FOR LEADERS AND MANAGERS IN THE CONSTRUCTION INDUSTRY

We're shaping a new wave of leaders in the construction industry, equipped with resilience, adaptability, and a deep commitment to sustainability. These leaders are prepared not just for today's dynamic business environment but also to build a greener, more sustainable future in construction.

Our course is designed to empower you to face uncertainties, confront risks with confidence, and trust in your ability to lead effectively in sustainable construction.

COURSE FORMAT

Learn, Live and Lead adds an in person experiential learning component to the online Sustainability Tool kit.

This three phase approach consists of the following:

- **Learn:** The course begins with two eLearning modules and discussion groups to start developing your sustainability action plan.
- **Live:** You'll be involved in the practical, hands-on experience in Anakiwa.
- **Lead:** Returning to your workplace you'll be supported by continuous online resources for post-course development.

This approach ensures a comprehensive learning experience, from initial learning and planning, to practical application, and review, this program embeds each stage of development.

Registration will be on a first-come, first-served basis and will remain open for interest until Friday, April 26th. If the course reaches maximum capacity before this date, registration will close. We require a minimum of 10 people and a maximum of 14 people to run the course.

The cost includes meals and four nights of Outward Bound accommodation, and transfers to and from Picton to Outward Bound in Anakiwa.

Cost

\$5,495pp (ex. GST)

Learn

BUILDING YOUR FOUNDATION

Kick off your journey with access to cutting-edge eLearning and resources.

This first phase is all about laying the groundwork. The Sustainability Toolkit consists of two e-learning modules. These provide you with the knowledge and insights you need to build your sustainability plan.

Each module consists of five 20-minute topics that will guide you in building an online action plan. Both modules are supported by online discussion groups, which allow you to check your ideas with the perspectives of other leaders in construction.

Foundation of Knowledge

Build your understanding of sustainable practices in construction with comprehensive eLearning modules.

Flexible Learning

Access resources and lessons at your own pace, fitting your learning around your schedule.

Up-to-date Content

Stay ahead of industry trends with the latest insights on green building techniques and sustainability standards.

Preparation for Action

Equip yourself with the knowledge needed to maximize your upcoming hands-on experience in Anakiwa.

Online

September - October 2024

Live

THE OUTDOOR ADVENTURE

Next up, take part in the four-day, hands-on outdoor experience at **Outward Bound** in Anakiwa.

This isn't just learning; it's living the principles of sustainability. You'll be out there, in one of NZ's most beautiful spots, putting your new knowledge into action. It's all about teamwork, facing challenges, and making sustainability work in the real world.

Throughout this experience you will interact with other leaders in construction that will help support the growth of your sustainability action plan.

Immersive Experience

Engage in a four-day adventure in Anakiwa, living the principles of sustainability in a breathtaking outdoor setting.

Hands-On Learning

Apply your knowledge in practical situations, deepening your understanding through direct experience.

Team Building

Strengthen teamwork and leadership skills by working closely with peers, facing challenges together.

Connection to Nature

Develop a deeper appreciation for environmental sustainability through direct interaction with the natural landscape.

Outward Bound - Anakiwa

Four Days - November 2024

Lead

MAKING A DIFFERENCE

With knowledge and real-world experience, you'll return to your role ready to lead. This final phase is where you bring it all home, using what you've learned and lived to inspire and guide your teams in sustainable practices. It's your time to shine as a leader in sustainability, driving positive change in the construction industry.

Apply and Innovate

Use your new skills and insights to lead sustainable practices in your workplace.

Inspire Your Team

Become a role model for sustainability, encouraging and guiding your team in green initiatives.

Drive Change

Leverage your experience to implement sustainable solutions and improvements in your projects.

Lasting Impact

Contribute to the construction industry's shift towards sustainability, making a difference for future generations.
