

## **MHONDONGORI CIRCUIT- B. CHINOSENGWA**

**JUNE REPORT 2024**

**CELL: 0776 994 526**

I would like to thank God for giving me the chance of working in the powerful ministry. It is because it is the future life of our future of the church.

### **ACTIVITIES**

- Church visit
- Church service
- Big Sunday service
- Church meetings
- Home visits

### **CHURCH VISITS**

During this month I visited Thokozani Church. Here I found that they were many children practising to preach and reading the bible. I also encouraged them it was good and wonderful to their teachers. I went there with the programme of the conference and they are able to practice very serious on bible quiz, singing and also they were many activities to be done over there.

### **CHURCH SERVICE**

I also went at Mhondongori church service. The service was led by the Sunday school team. They started by praise and worship. Others were giving us their testimonies. Then the other one gave us the sermon. They were now better they are improving in their learning.

### **BIG SUNDAY**

Here I went to Dwaleni church it was on big Sunday. This month was a pulpit exchange we were given evangelist Sibanda at Maglas circuit. He was very happy seeing parents pledging the Budget of the Sunday school gave the praise and worship and they also read the bible. Here I went with some T-Shirts to sell so that they will be a uniform at the conference and we cannot lose our children during the conference. Then the sermon was given by our evangelist and we enjoyed our big Sunday.

### **CHURCH MEETING**

During this month I went to Makwasha church for our meeting. Here we were encouraging all teachers to give their tithes at the office. This was of we were trying to have our wallet so that we will be able to overcome our problems by ourselves. We encourage that each one of us must give ten percent of his work in the house of the Lord. Then others gave us their money and it was very wonderful so we buy some T-Shirts to start our project we distributed them to the volunteers to sell.

I went on the second meeting at Makwasha church. Here we were collecting the money that was sold and we buy others and give to the other so that all region must have.

### **HOME VISIT**

Here I visited at Mrs Sithole in village 6 months. She is a teacher and I realised that she must have to buy T-Shirt for his son and buy one for him and I thank her for supporting the project.

I also visited Mrs Sibanda. She is also a teacher. She does what was done by Mrs Sithole I also thank God for giving some teachers who support their ministry.

I also visited Mr and Mrs Matondo and these stay in the same village. Here Mrs Matondo was a Christian and she stays with her nephew. I also sold T-Shirts and she bought one for her and the girl was happy. Granny also promised to give us money for the August conference.

### **CHALLENGES**

Here I am facing challenges of parents who does not pay tithes whilst coming to church. Another challenge is of the distances between villages which pose transport challenges. Others are too old to support their nephews and they also fail to give pledges.

### **MISSION**

To have a strong ministry. Not to be absent at all lessons. To have unity in our ministry and serious teachers that they should work with the holy spirit all the time.

## **Mhondongori Circuit- B Chinosengwa**

### **May's Report**

In the mighty name of the power of God I would like to thank him on working in the children ministry. It is the future life of church.

#### **Activities**

- Church visit
- Church service
- Big Sunday
- Home visit

#### **Big Sunday Service**

During this month I went to Thokozani church. It was Big Sunday circuit level. Here we were given the chance of leading the service. The Sunday School team gave the praise and worship songs. They also gave bible verses and now they were able to give testimonies. The sermon was given by our pastor. I encouraged the parent of our conference in Bulawayo.

#### **Church service**

I visited Mtishanga church service where I went to see if children were learning according to our syllabus. They were given a chance to participate on reading the bible practising on giving sermon or even heading the service. I found that in the middle age there was a challenge of singing. I enjoyed the service and I thank the teacher they were only two teachers and they divided their children.

I also visited Mhondongori church. There was a challenge of only one teacher and the others were absent. She took the children and taught them using our syllabus and she gave them some work to do and I ended up taking another group and we helped each other. I then encouraged children to remind their parents about our conference.

#### **Home visit**

I visited Mrs Mamvura family who is a widow staying with her nephews. There I visited because of the absent of her nephews. I started by singing and give a prayer then I

jumped into my purpose. I discussed of the absent she ended up calling them and I taught them how important of coming to church. I also encouraged them of how they will end up joining bad issues of things which will destroy their lives. They end up agreeing to come to.

### **Challenges**

I am facing a challenge of parents who do not give children enough space of tithes. There is also shortage of transport. Others are grannies and they are too old to support the needs of children. Other parents do not give pledged so that we can have our own wallet of Ministry.

### **Mission**

My mission is to have a huge and powerful ministry. It is our future life of the church. To have guarantee teachers that they work together and to have unity in our ministry. I wish the holy spirit to help work with us all the time.
