

Report for 25 February 2025

Musvuugwa Circuit Chivi

Teacher: Majoni U

Introduction

It's my pleasure to greet you all in Jesus name. I am happy to submit my report which covers up the month of February.

- Lesson plan
- Funeral
- Meetings/ workshops
- Challenges
- Mission
- Next month's plan

Lesson plan

During the month end of February we had several things to be done and should also bring covered up as per working standard. We were reading from the book of Mathew, Luke and Mark. The story was about the birth of Jesus. It was an amazing story about the birth of Jesus. Children were so surprised about where Jesus was born and it was fun on them. They enjoyed the story so much and also learnt more about the past. How they believe and how important was to have a baby boy by that time. We also make use of drama to point out how was Jesus born and what happened later. It was fantastic they manage to come up with a good drama.

More so we learnt from the book of Mark and Mathew again. We talked about Jesus' baptism. Thus when Jesus was baptised by John in the river Jordan on his way from Galilee. Children see the importance of Baptism. Everyone was happy and now they also understand about baptism and its importance.

Meetings/ workshops

On the 8th of February children's ministry team had a workshop at Makwasha in Zvishavane. They came with a large number and the workshop was done. They discussed about the conference in August and the trip to be done in May. Its our wish to

come up with better numbers of children to attend the trip. We also discussed about the conference, teachers and children are very busy preparing for the conference.

Challenge

This month of February on my side things were not stable. I lost my two relatives consecutively. my sisters early February on the second week. Also my father Mid-February and it was so painful. I managed to attend only few services due to the loss of my relatives. My program with my team did not go well due to my absenteeism. Also we are facing many challenges on children. They are not coming in numbers as usual. Some of them are being occupied by farm work.

Mission

Our mission is to build and create long lasting future generation. To groom and come up with better teachers, preachers for tomorrow. Also to create structures at our churches.
