

**REPORT FOR 28 FEBRUARY 2024  
MUSVUUGWA CIRCUIT CHIVI MAJONI**

Introduction

It's my greatest pleasure to greet you all in the mighty name of Jesus. How are you over there? Hope you are doing well as usual. Here we are fine.

During this month I managed to cover up only (3) three churches accordingly. We are busy as we started the year there are some changes at churches and we are busy to mend up all the churches.

On the first week I attended my service at Takavarasha where I met a big number of children. I was very happy to meet such a group like that. They were mixed up with the graduates and I was excited to have them together. I decided to repeat my previous lesson about good manners. I thought then and it's my wish that they are going to be good children of God. They also understand about manners some thought they were right but they understand how to communicate with others at school or even at home.

The following week we had a workshop at Makwasha as teachers. We learnt more there and we enjoyed the workshop. Teachers came in numbers and we had good time there. We learnt several things according to the Ministry on how to prepare a lesson also how to teach them. It was a good time for learning and practice. We also had the election team of our leadership. We did it very well and we pray for the elected to do their work perfectly. Without hesitation but being guided by god.

Furthermore, the following week we were at the funeral in Masinire village. We didn't attend the service because of the loss of our uncle.

Apart from that people were busy preparing for the leadership workshop. I failed to go because of some circumstances according to family issues some managed to go and they attended the workshop at Siboza

Challenges

Due to seasonal we are facing more challenging some of the children are cattle headers so they didn't come to church as usual. Some of them they look after their fields since some places have got baboons that eat their crops. Because of this most children will not afford to come. Also shelter is no longer a problem at both of churches.

Mission

To build and create a long lasting future generation for tomorrow and ever.

Jeremiah 32 vs 40

**REPORT FOR 25 JANUARY 2024  
MUSVUUGWA CIRCUIT CHIVI MAJONI**

**Introduction**

How are you, I hope you are all fine as usual well back here I'm okay with the Ministry. We thank God for guiding until we reach this new year 2024 with his grace we are here.

We started our year with happiness and we are happy too. God managed to protect us from the evil. During the month at the 1<sup>st</sup> week we had all-night prayer together with the children and parents. It was a special day for both of us. Children were showing their talents. It was a blessed night with our children.

Furthermore, on the second week I managed to attend my service at Musvuugwa, the number of children was very low due to the season. We learn about the holy spirit from the book of Mathew 1 vs 18-20. We also talked about manners since the schools are opened. We teach them to communicate with teachers and other children at school. They also understand that people come from different places and also children are raised at different stages. So they should understand each other from their belongings.

In addition to that on the following week I failed to attend the service because I was away. I had gone to a funeral at my home area. When I came back I managed to catch up with few children. I decided to use some text message on their parents' cell phone. I communicate with little friends and my teachers told me that they learn about health. I thank her because it's a special lesson according to our children. They should protect themselves so as to maintain their health.

**Challenges**

As the year begins we are facing many challenges. The number of children is very low. Some children are cattle herders, and some will be looking after their fields. So we have a big challenge there until they harvest in the fields. This season is very busy and only girl child is attending the service as compared to boys. More so we have the challenge of shelter in both churches. We don't have shelter. We managed to mould some bricks at one of the other churches but still under pressure. We need to construct more than those we had made already.

Finally, we would like to thank you for every hand you put upon us. It's my mission to build and create an everlasting and future generation for better tomorrow
