Comments: *Our church services are going on well but some of the few members are no longer coming they just promise to come but they don't. The good part is that we are receiving more new members in our circuit. The other thing that is really worrying our people is that this year is really a drought year all people their fields were grounded by the heat wave we are experiencing in our country and their cattle are dying because of Janaty deases so it is a big problem facing people.*
