Preachers' from new churches training program

This was the training of preachers from new churches. This time students were doing "Christian counselling and family" as a course. Each student was given a top to present that has to do with public or private counselling. As a facilitator, I saw the power of teaching using method of presentations. Learners seem to enjoy this way of learning.

Men's fellowship conference

There was a men's conference at Mpalawani church during this month. The conference was well attended which shows that there is an improvement in men's fellowship. Lessons were targeting to build the church through men's fellowship and build families through this fellowship.

Meeting with district children' teachers

We had a district meeting with teacher of children's church in reviewing work done since beginning of the year. Secondly, we talked about children conference to come in august. The conference is going to be in Bulawayo makokoba. As the pastor to this department, I was to do the program and the available is now available. Lastly, we talked about having a project to run, that will give some money to support the ministerial work.

Sibozza circuit preachers' training program

I am trying to work hard with this group to cover all courses on this program before the year-end. Students had time to write exams of the lessons they had cover.

Murerezi leadership workshop

There was leadership workshop at Murerezi and Mr B.J Mpfu accompanied us there. Pastor Madzore and I were the facilitators at this workshop as usual. We taught them about church administration so that these leaders they will know how to lead and manage church business. The workshop was well attended.

Conclusion

The month of May was full of progress. My prayer as district pastor is to see work of going to another level.
