

February/March 2020

WELCOME TO OUR NEWSLETTER

It's our bi-monthly blurb about Momentum Equipment Services. What we do, what we offer, our people, suppliers and customers, our specials and what's new to us and our industry.

MOMENTUM EQUIPMENT SERVICES ARE PROUD MEMBERS OF THE NEW ZEALAND FORKLIFT INDUSTRY ASSOCIATION

The primary objective of the NZFIA is to promote the best and safest practices for those involved in operating and maintaining Forklifts in New Zealand. In order to work towards this the NZFIA is committed to promoting national awareness on various levels within the Industry Sector in areas such as training, maintenance, certification and compliance of machinery.

FORKLIFT SAFETY PRODUCT SPOTLIGHT

GenieGrips® Mats have been specifically designed for exceptional grip and load stability.

They are made from a steel reinforced rubber and are highly durable, incredibly strong, non-marking and oil resistant. They are easily removed and replaced as required.

These come in a range of sizes to suit all machines and can be custom made for special purposes.

We also have **GenieGrips® Caps and Cushions** available.

For more information on **GenieGrips®** and our range of safety products contact us or visit the **SAFETY** page on our website.

TESTIMONIAL:

"Since using GenieGrips® we have virtually eliminated damage to our product from slipping or falling off forklift tyres during transport. This has saved us both time and money from reworking damaged product." - Chris Dellios, Plant Manager GB Galvanising

Did you know?

We not only sell new machines, but can source used equipment from our own fleet and refurbished trade ins.

If you are thinking of upgrading to a later model, please contact us for a valuation on your current machine, we have many enquiries for good used gear.

We can also offer valuations on your current fleet for insurance / sales purposes.

ELECTRIC COUNTERBALANCE FORKLIFTS FROM EP EQUIPMENT

PRICED FROM \$35,000+GST

EP INNOVATION

CPD15/20/30/35L1 - ELECTRIC COUNTERBALANCE FORKLIFT TRUCK 1.5/2.0/3.0/3.5T

Looking for a new forklift? Check out the Electric Counterbalance Forklifts from EP Equipment.

- The L1 Li-Ion 4 wheel counterbalance truck is the world's first real Li-Ion forklift truck.
- The chassis is designed around the advantages of Li-Ion technology.
- The truck has the widest cabin space in the industry for a maximum in ergonomics.
- With quick charging and high performance, it is the perfect truck to replace IC forklift trucks.
- Due to the Li-Ion technology build into the L1 counterbalance truck, the machine is more powerful than most of its competitors.
- It is water protected and can be used outdoors also in the rain. Loading and unloading is where the L1 plays out its strength.

If you want to Move it! Stack it! Store it! Pick it! We have the answer. EP is a trusted award-winning international brand based on quality and affordability.

Visit our website for more information on this range of electric forklifts: www.momentumequipment.co.nz/ep-electric-forklifts Or contact us for more information and pricing 0800 666 368.

Diesel or Electric—we can pair you with the materials handling solution that works for your business!
