54	41	Penney	740	180	560
55	50	Fast Shoes	470	100	370

## Grampians90 JULY 2020

We hope you enjoyed the night run around the Grampians, there was 78-people in 55-teams. These are the provisional results, if you think you have a different score, let us know and we can recount. Quite a few people had marked two answers for the same question so they missed out on those points.

Matt Ogden was first back after getting all controls but he 'self-disqualified' because a large portion of his answer sheet was missing - see below. That would have put Dave & Darron into first place but they marked an answer wrong - a 20-pointer too! - so that couldn't count, leaving Brent Edwards the winner on the night.

It was great to see lots of young people out there and many people learning to rogain. A few teams discovered how important good lights are when you're in the forest, the urban rogaines you can get by with street lights, but the Grampians can be very dark. Good on all those that took on the legendary CP42! The Rabbit Island rogain is next, hopefully the moon will provide some light and atmosphere.

Thanks for the Nelson Orienteering Club for running the series.

Nathan, Jodie and Kieran
