## Yellow-Crowned Kākāriki

Breed for release Program

Proudly Sponsored by

## BREED FOR RELEASE PROGRAM SPONSORED BY WINSTONE AGGREGATES

A big thank you to Winstone Aggregates for their generous support of the Yellow-crowned Kakariki breeding program. Their sponsorship is vital to protecting this endangered species and showcases the positive impact businesses can have on wildlife conservation.

### Impact of Their Sponsorship:

- Maintain and improve breeding aviaries and equipment.
- Provide specialized diets to support the health of breeding pairs and chicks.
- Cover essential operational costs such as veterinary care, animal husbandry, and the expertise of trained animal keepers to ensure the well-being of each bird.

## South Island Kākā

Breed for release Program

Natureland Wildlife Trust is dedicated to the breeding and release of the South Island Kākā, a species at risk of extinction. This crucial conservation initiative requires ongoing care, resources, and strong community engagement. While we are currently seeking a sponsor for this program, the support of a dedicated partner would be transformative in our efforts to protect and conserve this remarkable bird.

### Potential Impact of Sponsorship:

- Provide crucial care, monitoring, and breeding support for the South Island Kākā.
- Raise community awareness about the importance of conserving native species and habitats.
- Cover essential operational costs such as veterinary care, animal husbandry, and the expertise of trained animal keepers to ensure the well-being of each bird.

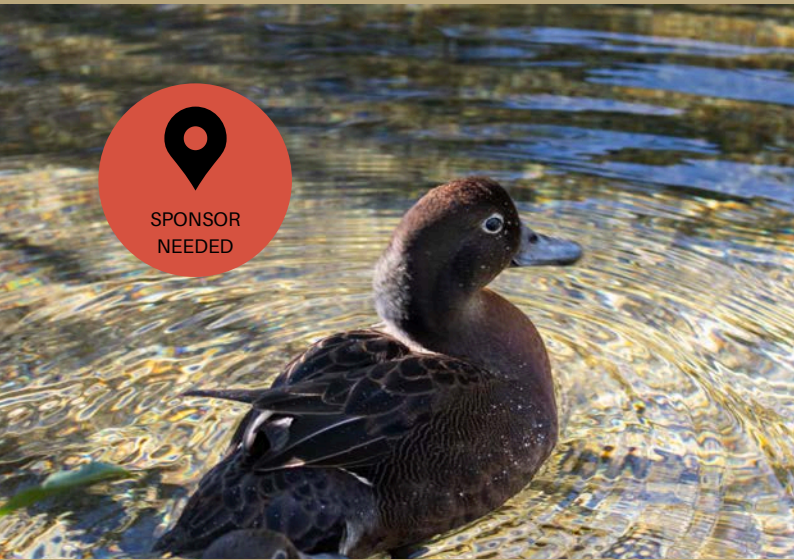

# Project Profiles

## Pāteke

Breed for release Program

### VITAL BREED TO RELEASE PROGRAMS IN NEED OF SPONSORSHIP

We are dedicated to conserving the Pāteke, a rare and endangered duck native to New Zealand. Through our breeding for release programs, we aim to restore this species to its natural habitat. We're seeking sponsorship to support their care and continue educating the public on wildlife conservation.

#### Potential Impact of Sponsorship:

- Support the breed for release of Pāteke ducks into the wild to strengthen their population.
- Ensure the proper care, monitoring, and health management of the Pāteke throughout their lifecycle.
- Cover essential operational costs such as veterinary care, animal husbandry, and the expertise of trained animal keepers to ensure the well-being of each bird.

## INTEGRAL EDUCATIONAL PROGRAMS FOR COMMUNITY

We're dedicated to inspiring a love of wildlife and conservation through our educational programs, including affordable school sessions, holiday programs, and homeschool group sessions. These initiatives engage young minds and teach the importance of biodiversity and environmental stewardship.

#### Potential Impact of Sponsorship:

- Provide affordable, hands-on educational experiences for school groups, homeschool families, and holiday campers.
- Promote environmental awareness and conservation values to the next generation of caretakers.
- Increase accessibility for a wide range of students, regardless of background, to engage with wildlife education and hands-on learning.
