Editorial

Hi Hunters and Shooters,

Greatly enjoyed club night with Willie presenting on how the african big game guiding business works and how the animals don't always play nicely.

Some key points for this month:

Club Night is a Buy, Sell and Swap Night. Please read the details carefully further below.

Shooting Competitions – Below are the final results from the Rimfire Summer Series (well done Greg) and also the Easter Nationals held in pretty wild weather. The Matariki Shoot in June is a great introductory event for those looking to see how the sport works and you can choose indoor .22 or outdoor (and of course both). Talk to Graeme if you have a hankering.

Reporting Strange Things - I get quite a few emails or queries about sightings of activities or parts of animals that seem irregular in terms of animal control or etc. The usual news is such as a second hand query about “a helicopter in Molesworth....” When I ask exactly where and when?, and seek other details there are often none. Its impossible to follow up on such little info. So a little bit of guidance has been drafted and several other clubs have circulated it to their members. Always happy to follow up any “goings-on” but need a bit of detail!

Committee & General Support - Our Branch AGM will be in June again and it's a time to confirm Committee members. It would be great to have some fresh minds so if you think you can help support our Club and its activities at Committee level please put your hand up -email our Secretary dave@nzdanelson.co.nz

We are at a point where we are struggling a wee bit to cover some bases in both organised activities, e.g. club nights, hunting or other field activities and Branch administration, e.g. oversight of Red Deer Lodge, managing special access to hunting areas, National Goat and our own Range (need more active Ros) and general Committee work. Much of this currently falls to less than 10 people out of over 300 members. A few more capable hands would make this lighter work for all and allow more fun activities for all to enjoy. We do have resources available but the organisation and documentation of activites takes effort. You don't have to be on the Committee to be very useful, just capable and reliable - which as hunters and shooters I presume you all to be!

Good Hunting & Safe Shooting – *The Editor*

How to Report Incidents or Sightings Affecting Hunting

Rationale:

Hunters constantly cover large areas of public land and see things that raise questions in terms of good game animal management practices (e.g. carcasses in areas after pesticide programmes, gut-bags in areas where they might not be expected). Verbal and anecdotal reports of such things to NZDA are not useful as hearsay is insufficient to take to any agency or authority, evidence is essential.

Objective: Provide hunters with simple procedures to accurately record issues that raise concern.

Recording and Reporting Procedures

- If not alone always confirm with other members of your party what has been seen and who is making a record
- Get position from GPS and/or record location (area, catchment etc) to best level of detail possible, waypoint on your GPS

- Take photograph(s) of all relevant subject matter
- Use Notes on your phone to record a few facts – date and time; other party members; other comments or matters (if you can't use Notes then text or email info to yourself even if outside coverage)
 - Contact your NZDA Branch when back in “civilisation” and be able to pass on evidence

This tahr (in the Dobson) had triggered or been caught up in an avalanche which was evident on looking closely at the terrain above, not just shot to rot.
