

THE NEW ZEALAND SPECIAL INTEREST GROUP in NEUROPSYCHOLOGY CONSTITUTION

HISTORY OF NZSIGN

The Development of NZSIGN

Until the advent of NZSIGN there was no systematic arrangement for neuropsychologists in Aotearoa New Zealand to undertake continuing education to keep their knowledge up to date, or to develop expertise and knowledge in new areas. NZSIGN was formed to address this need, and to allow neuropsychologists around the country to communicate with each other and share ideas. NZSIGN works to foster, provide and coordinate information sharing and training, and to promote neuropsychology as a field of practice. NZSIGN also provides training opportunities that assist members of other disciplines to develop an understanding of neuropsychological issues. As the organisation developed and grew, its expertise was increasingly sought for the provision of high-level guidance and advice on matters related to the practice of neuropsychology.

AIMS OF NZSIGN

NZSIGN aims to meet goals in several primary areas of concern:

(a) Identification of Neuropsychologists and those interested in this area

NZSIGN allows Neuropsychologists in NZ to be in touch with each other through a professional network.

(b) Education

The knowledge and techniques of assessment and treatment that are the basis of neuropsychology are continually being researched and developed. NZSIGN aims to educate members via educational workshops, sharing of resources, collegial discussions and ultimately the development of a Neuropsychology post graduate qualification. NZSIGN members can also request to be put in touch with suitable potential neuropsychology supervisors to help them further their skill development.

(c) Representation

Focussed representation of concerns affecting neuropsychology as a profession is essential. NZSIGN aims to present and promote the quality and skills of its own members and assist in educating the public about sound standards of practice. Representation encompasses issues such as the following:

- (i) Providing the public with information about the areas of expertise of neuropsychologists to promote informed consumer choice.
- (ii) Representing neuropsychology with the New Zealand Psychologists Board
- (iii) Providing representation to bodies such as the Ministry of Health and other governmental agencies (e.g. ACC, MHC, and Ministry of Social Development) or other organisations on matters relevant to the profession.

(d) Guidance and advice

NZSIGN members are experts in the field of neuropsychology and from time-to-time high level guidance and advice may be sought or given by the organisation. This may include for example position statements or endorsements of best practice clinical guidance.

BENEFITS OF NZSIGN MEMBERSHIP

1. **Promotion of the profession.** This professional organisation is able to promote the role of practicing neuropsychologists. It can promote Neuropsychology to the public as a professional speciality. This should have long-term benefits for individuals of the profession.
2. **Collegiality and support.** NZSIGN will put you in touch with the group of people who are your professional colleagues and allows for great networking. Communication with other members occurs through a Google Group email list, which allows you to partake in discussions regarding neuropsychological practice with colleagues around the country. It also facilitates access to significant expertise and guidance the field of neuropsychology in Aotearoa New Zealand, and to potential supervisors. Neuropsychologists may work in multi-disciplinary teams and can feel somewhat isolated from likeminded professionals. Workshops give opportunities to refresh and reconnect with your discipline.
3. **Workshops at reduced costs.** Membership gives you entry to the continuing education programme co-ordinated by NZSIGN at a reduced cost. The organisation is non-profit making and much of the organising of the education is done voluntarily by enthusiastic and committed members, enabling us to have high standard local and overseas speakers at relatively low cost. NZSIGN works to foster, provide and co-ordinate such training, and to promote regular participation by members. Ongoing education assists in the process of continued development and updating of professional skills.
4. **An avenue to effect changes in the profession.** Membership will provide an avenue for you to express your opinion about important issues affecting the profession. From time to time members may be asked to vote on matters related to best practice. Members have voting rights at the AGM.
5. **Kept informed of current issues, useful book reviews, job vacancies, courses and seminars, relevant abstracts, etc., specific to Neuropsychology in N.Z.** as well as providing overseas references.
