

# LIGHT WEIGHT FENCING

2M HIGH X 2.4M LONG

Temporary fencing is a requirement on all residential, commercial and industrial work sites. Safe Hire has the solution to a safe and secure site!

Our light weight range mesh panel measures 2.4 x 2.1m in size and is manufactured to meet New Zealand standards. They're strong and durable, yet lightweight, easy to install and feature anti-climb mesh for added security.

## OVERVIEW

- Anti-climb mesh for added site security
- Very easy to set up by one person
- Approved to New Zealand Standards AS4687-2007
- Lightweight yet strong
- 42 micron galvanized steel finish
- Each panel measures 2.1 metres high and 2.4m long
- 33mm tubes (25mm NB).
- 33mm OD Verticals and Horizontals

## AVAILABLE WITH CONCRETE FEET

Our plastic moulded fencing feet are filled with concrete for a sturdy and robust finish, ideal for supporting and weighing down fencing panels onsite and in tough environments. Each fence base measures 150mm wide x 230mm long and weighs 25kg.
